New TRIUMPH TULIP

Elliott's Giant

*Incomparable
in its Brilliance*

EVERY year the great Dutch plant breeders show us new varieties of Tulips and ask us to name them. Whenever Mr. Elliott considers a new variety fine enough he will name it in honor of one of his distinguished customers. But never before the creation of Elliott's Giant would he permit any Dutch plant breeder to use the name of Elliott. To merit the name of Elliott a variety had to be almost perfection itself—great enough to justify all that Elliott's have stood for in Tulips for over half a century.

World's Largest Red Tulip

Now at last comes the new Elliott's Giant, the first and only variety to meet Elliott's specifications of supreme quality. The flowers are of tremendous size—as large as our famous Queen of the North. The flower form, though different in shape, is as fine as the shape of Queen of the North—virtually perfect. The color is a brilliant, shimmering, shining carmine-red which does not fade even in the most brilliant sunshine and never shows a trace of turning an unpleasant magenta-purple as do so many red Tulips as they grow old. The flower with its glorious color lasts a full week after most other Tulips starting to bloom at the same time have disappeared.

Proudly we offer Elliott's own Tulip, the new Elliott's Giant. Beyond compare the largest, the finest, the most perfect and altogether the loveliest red Tulip in the world.

Elliott's Giant is our exclusive Tulip and cannot be bought any place else in the world.

Spring's First Flower — The CROCUS

FLOWERS IN MARCH

BETWEEN the melting of winter's last snow and the blooming of spring's first Tulip, a flat and barren landscape is an ordeal for sensitive people to endure. And it is quite unnecessary when Crocuses are available to fill in the void. It would seem almost foolish to deprive oneself of the joy that Crocuses bring. Even if one were indifferent on one's own account, isn't it selfish to refuse to add beauty to the world when beauty may be had at so little cost?

AMETHYST. Fine porcelain-blue

CLOTH OF SILVER. White, violet striped.

ENCHANTRESS. A glorious, new light blue Crocus best described as porcelain-blue. The large flowers, while very delicate and lovely, are nevertheless distinct and permanent and the color does not fade with age. Enchantress is unquestionably the finest of the new light blue Crocus.

EXCELSIOR. Lovely new light blue Crocus with largest flowers so far created. 40c per doz.; \$2.65 per 100.

GLADSTONE. The newest and incomparably the finest dark blue Crocus in existence. The flowers are the largest in the Crocus group and the color is the deepest, richest purple-blue possible. No other Crocus of its color compares with it in loveliness.

GRAND LILAC. Lilac; very early and very fine.

KING OF THE BLUES. Dark purple.

KING OF THE WHITES. Large; snow-white; splendid new variety.

MME. MINA. Light blue striped; very early; extra fine.

PURPUREA GRANDIFLORA. The finest purple Crocus. 50c per doz.; \$3.50 per 100.

QUEEN OF THE BLUES. The finest porcelain-blue Crocus.

REMEMBRANCE. The finest purplish blue Crocus.

SNOWSTORM. The largest flowers in the Crocus family, colored the purest, glistening, unblemished white. Snowstorm, the newest of the white Crocus, is by far and away the best of the whites and one of the best of all Crocus.

STRIPED BEAUTY. A lovely new striped Crocus colored lavender and white. The flowers are as large as the largest Crocus and very delicate and lovely in color and form. Incomparably the finest of the striped Crocus.

Crocuses, the earliest of all spring-flowering bulbs, are also the cheapest, and there is nothing else to take their place. If the foliage is not cut off they will last indefinitely. They should be used for edging Tulip beds or any garden bed or shrub border. Scattered through the lawn, they will gleam like jewels against the verdant background.

For best effects allow seven to nine bulbs for each square foot to be planted.

CROCUS, LARGE YELLOW

It will sometimes happen that a plant breeder will create a flower which his successors will struggle in vain to equal. Crocus, Large Yellow, is such a flower. Created before the founders of the Elliott Nursery Company were born, its equal is yet to be produced, though during that time, all other Crocus colors have been improved beyond recognition. Large Yellow is still incomparably the finest of the yellow Crocus and about the finest of all Crocus.

Monster Bulbs. The finest obtainable. 45c per doz.; \$2.95 per 100.

Mammoth Bulbs. Specially selected grade. 35c per doz.; \$2.55 per 100.

Second Size Bulbs. 30c per doz.; \$1.95 per 100.

CROCUS IN MIXTURE

The colors are white, blue, striped or yellow. In quantities of twenty-five of a kind you have the privilege of ordering by color if desired; otherwise we will mix them for you. 25 for 55c; \$1.85 per 100; \$16.00 per 1000.

COLCHICUM

GIANT FLOWERING FALL CROCUS

Planted in the garden the Colchicum flowers in September and the flowers are from three to four times the size of the Spring-flowering Crocus. The bulbs will bloom in the house in September without being planted or without water, and afterwards, in November, may be planted in the garden.

COLCHICUM AUTUMNALE ALBA. Pure white. 30c each; \$3.25 per doz.

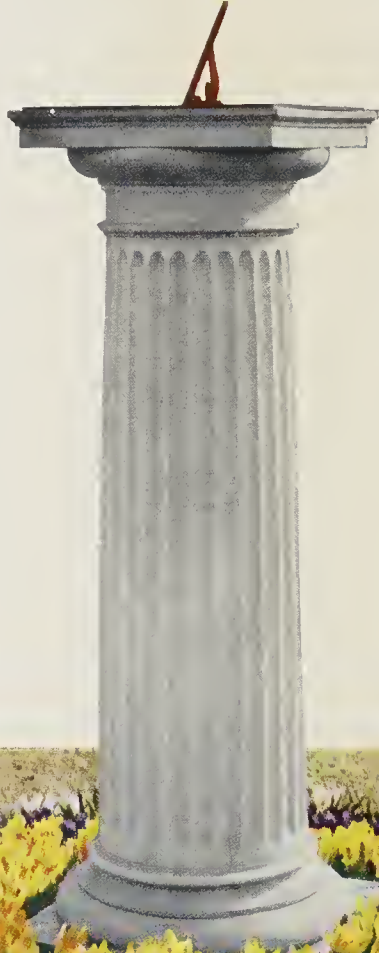

COLCHICUM GIGANTEUM. Soft lilac, white center. 40c each; \$4.00 per doz.

Every offer in this book *positively* closes July 1

EARLY in July our buyers sail for Holland to get the pick of the best bulb crops. To place your order after sailing date, is to buy too late; it would then be impossible to fill your order. Your advantages under this method are many: Ours is the biggest bulb house in the world. We import on such a large scale that we can and do sell the world's finest, super quality, named bulbs at prices lower than are charged for nameless, second rate ones.

As we deal with scientist-specialists in each variety, rather than with ordinary growers you can be certain that every Elliott bulb is exactly as named and described, that every bulb is fresh and healthy, and that every bulb has reached its full maturity and is ready to produce its finest flowers.

As you go through this catalog, you will find a greater variety of bulbs than any retail store could possibly carry. But, better than this, you will find

Elliott bulbs described with an accuracy of detail that is impossible to the average clerk. So, when you put an Elliott bulb into the ground, you know exactly what kind of a flower it will bring forth.

Remember Elliott's Super-Quality Bulbs cost less than nondescript ones, remember that we import to your order. Your bulbs will be selected and packed in Holland and will be shipped to you immediately upon their arrival in this country next fall, perfectly fresh, double-tested, and in the best possible condition.

But you must be prompt; your order must reach us by July 1st.

TRIUMPH

Will Flower

These new Triumph Tulips are true Giant Flowering Tulips of incomparable splendor. The flowers of the better varieties are even larger than the gorgeous Late Giant Flowering Tulips which everybody knows and plants, and they are borne on flower stems at least as tall and even more sturdy. Among the flowers of the Triumph Tulips is a complete color range—a color for every taste and purpose. They bloom after the passing of the Early

ELNURCO

ELNURCO Is the brilliant new “Elliott’s Giant” really the world’s finest red Tulip? Certainly the flowers of the marvelous new giant Elnurco are as large; certainly the blooms are as perfectly formed and the stems are as tall and sturdy. While we control both Elliott’s Giant and Elnurco, to only one could be given the Elliott name. The decision was close. Our directors divided three for Elliott’s Giant and three for Elnurco. The final decision was Mr. Elliott’s and he voted for Elliott’s Giant, the lighter red. If you agree with our three directors that crimson-red is to be preferred to carmine-red, then Elnurco is beyond question the largest, the finest, the most perfect and altogether the loveliest red Tulip in the world. It is our exclusive Tulip and cannot be bought any place else in the world. \$1.00 per doz.; \$7.25 per 100.

ALBERIO. A beautiful wine-red, darker than the deepest pink, lighter than pure red, with a very narrow edge of flesh-pink. An exquisitely delicate variety. \$1.00 per doz.; \$7.50 per 100.

AVIATOR. The outside of the petals is flaming crimson-red with an edge of pure white; the inside glowing garnet-red with a pure white edge and a white base starred brilliant blue. \$1.00 per doz.; \$7.50 per 100.

CECELIA. Enormous, long, oval flower colored soft, deep yellow. The edges of the petals are feathered intense carmine-red. The flowers larger and the color more lovely than the famous Picotee Yellow. 95c per doz.; \$6.75 per 100.

DEMBOLA. Glowing dark blood-red, each petal edged with white. \$1.00 per doz.; \$7.25 per 100.

MER de GLACE

MER de GLACE In trying to secure for his customers the finest Tulips in the world, Mr. Elliott can record many brilliant triumphs. He is always competing with the great English houses and the representatives of these houses, the world’s best bulbmen, are keen business men who know a good thing when they see it. Besides they have the advantage of being less than three hours away by airplane from the bulb fields. Consequently, it is not surprising that along with his triumphs Mr. Elliott meets some defeats and makes some disappointing compromises. “Tipped off” about Mer de Glace, a new white Giant Triumph Tulip, Mr. Elliott hastened to inspect it and if it measured up to its report to monopolize it. It did measure up. Unquestionably, the new Mer de Glace is the largest and finest white Tulip in existence. Then he learned to his intense disgust that an Englishman “beat him to it.” Since “half a loaf is better than none” Mr. Elliott arranged a compromise with the Englishman so that some few of the new Mer de Glace, the world’s finest, most perfect white Tulip, may be seen in American gardens. No other American bulb house can supply it at any price. \$1.75 per doz.; \$12.00 per 100.

HYPERION. This lovely variety was Mr. Elliott’s personal choice for the background of his own Triumph Tulip gar-

den. The color is an indescribably lovely dark red modified by a blending of violet. 90c per doz.; \$6.50 per 100.

ALICE E.

ALICE E. After tasting the bitterness of defeat it is pleasant to record a triumph. The new Alice E. is the world’s premier giant salmon-pink Tulip as Mr. Elliott discovered when he inspected it in the gardens of a great Dutch plant breeder. The Englishman who controlled Mer de Glace also wanted Alice E. but Mr. Elliott grabbed it almost from under his nose. When the Englishman’s anger had cooled sufficiently he inquired about a compromise and we agreed to give him 30 per cent of Alice E. in exchange for an equal quantity of Mer de Glace. The new Alice E. is the largest, the most perfect and altogether the loveliest salmon-pink Tulip in the world. No other bulb house in America can supply it at any price. \$1.15 per doz.; \$8.50 per 100.

TULIPS

Rare and Exclusive

About April 30th

Tulips but before the flowers of the Late Tulips open. In addition to their gorgeous beauty which makes them supreme above all other Tulips, the Triumph Tulips have one other advantage, namely, they will bloom in the winter time in the house with but little trouble, whereas the forcing of the older Late Giant Flowering Tulips requires so much skill that amateur planters invariably fail with them.

Even among a race of Giant Tulips, the flowers of the new **FIREBRAND** are colossal. They are also perfect in form and substance and borne on substantial sturdy stems. It is the darkest of the red Tulips, the flowers being colored dark, deep blood-red; almost a garnet. Contrasted to this deep, rich color is a conspicuous edging of pure white. The base is also white, edged with black and the anthers are black. Finally there is a slight purple bloom down the middle of the outside petals. In addition to the tremendous size of the flower Firebrand has the richest color of all Tulips. The new Firebrand is our exclusive Tulip and cannot be bought any place else in the world. 75c per doz.; \$5.50 per 100.

KANSAS. Pure glistening snow-white flowers without a trace of blemish. \$1.00 per doz.; \$7.50 per 100.

LORD CARNARVON. Exceedingly large flowers colored the loveliest soft rose-pink with a broad white margin; inside bright rose-pink and a white base star-red yellow. 75c per doz.; \$5.25 per 100.

MIZAR. Shimmering violet-rose edged faint amber, changing to pure rose with a blush pink edge; light yellow base with a green halo. We are confident this lovely variety will have a wider popular appeal and be more extensively planted than any other Tulip in any class. 95c per doz.; \$6.75 per 100.

We are proud of our enterprise in securing control of this **CANDLELIGHT** lovely new yellow Giant Flowering Triumph Tulip. Several of the great English houses would sell their souls to own it. The fact is that while there are other yellow Triumph Tulips all of them produce small, insignificant flowers colored a muddy, dirty yellow. The new Candlelight is a real giant and its color is the softest, clearest yellow imaginable—a yellow which is absolutely clean. Truly the new giant Candlelight is a jewel among Tulips and our exclusive jewel which can be secured no other place in the world. \$1.30 per doz.; \$9.75 per 100.

ROTTERDAM. Gorgeous red petals bordered with pure yellow. While Rotterdam has the true cup-shaped flowers of the Giant Flowering Tulips, the coloring is that of the ever popular Single Early Tulip Keizerskroon. Indescribably gorgeous. 85c per doz.; \$5.75 per 100.

SNOWDRIFT. Pure white, slightly Lily-flowering. The best white Triumph. 95c per doz.; \$6.75 per 100.

TUBAN. Deep glowing pink flowers with a white edge. Dainty and exquisite

MR. ZIMMERMAN. Mr. Zimmerman is deep pink, almost a light fuchsia red at the center of the petals which blends out uniformly to a silvery white at the edges. The base is pure white and the flowers are long and narrow. Mr. Elliott considers it the most exquisitely delicate colored tulip in existence, yet notwithstanding the delicacy and the softness of the color, the flower is not bleached by age or sunlight. 75c per doz.; \$5.50 per 100.

RED FLAME. Glowing cherry-red flushed with soft yellow; green base and black anthers. An incomparably splendid variety. 85c per doz.; \$5.75 per 100.

Another giant of the Triumph Tulips is Fascination. Perfectly shaped flowers, extremely large and substantial, borne on fine, sturdy stems. The color, lavender modified with red, gives the effect of soft rose-lavender. The inside cup is a delightful violet and the base is violet-blue. The flower is long and rather slender. Mr. Elliott controls Fascination. Unquestionably the largest, the finest, the most perfect and altogether the loveliest lavender Tulip in existence. 95c per doz.; \$7.00 per 100.

FASCINATION

Late Flowering

GIANT

The modern Giant Flowering Tulip is the result of three separate experiments in plant breeding and of the inter-breeding of the products of these experiments. The final result is a race of Tulips so beautiful and with a color range so varied as to be beyond even the imagination of the previous generation of gardeners.

The first experiment produced the DARWIN TULIPS, including the so-called Ideal Darwins. The resulting colors were gorgeous reds, magnificent lovely pinks together with inferior purples and dirty whites. Obviously the group was neither complete nor satisfactory.

The second experiment called BREEDER TULIPS resulted in color variations of yellow and blue tones. Again the plant breeders failed to get either the pure primary colors blue and yellow or white. The pure primary red existed only in the DARWINS.

DILLENBURG A magnificent new Tulip incomparable in the glory of its coloring. The flowers, which are exceedingly large, are colored a marvelous salmon-orange. Loveliest of the newer Tulips with no possible rival to challenge its magnificence. \$1.15 per doz.; \$8.50 per 100.

ADORATION. A gorgeous new variety with immense, strong flowers colored an unusually lovely, clear, brilliant pink with lighter edges and a white base. 3 for 55c; \$1.75 per doz.; \$12.00 per 100.

AFTERGLOW. Deep orange suffused with salmon and salmon edge. Large flower of splendid substance and unusual coloring. Carried on a tall, stately stem. Height 26 inches. 75c per doz.; \$5.25 per 100.

ADVANCE. For 50 years Farncombe Sanders ruled the Tulip world as the finest scarlet Tulip in existence. But no reign can last forever and now comes Advance to throw Sanders from its high place. Advance is superior to Sanders in every respect. The flowers are so much larger that they make Sanders seem puny by comparison. And the stem is taller, 30 inches as against 22 and in addition it has no tendency towards weakness. The color is even more intense and vivid; a fiery scarlet that literally burns holes in the landscape. Incomparably the finest giant flowered scarlet tulip in existence. 3 for 55c; \$1.75 per doz.; \$12.00 per 100.

CAMELLIA A gorgeous new Tulip which definitely puts that famous old favorite Princess Elizabeth into the "10c Store" class. The lovely satiny rose-pink color of Camellia is even finer than Princess Elizabeth, the flowers are much larger, of far better substance and Camellia has a far more graceful shape. The stems are far more sturdy than those of the rather weak Princess Elizabeth. \$1.10 per doz.; \$8.00 per 100.

APHRODITE. The finest clear rose Tulip. 90c per doz.; \$6.50 per 100.

ARETHUSA. An immense Tulip colored the loveliest imaginable translucent chrome-yellow and having an exquisite fragrance. 95c per doz.; \$6.75 per 100.

ARGO. A deep golden yellow flower which is, nevertheless, very soft and is penciled towards the top edge of the petals with orange. 90c per doz.; \$6.25 per 100.

BARBARA PRATT. A new Tulip with a long and exquisitely modeled flower colored the most luminous and radiant cherry-pink in existence. Through the whole flower, which is sweet scented and crowns a 36 inch stem, shines a most extraordinary golden light. Wonderfully beautiful. 3 for 55c; \$1.75 per doz.; \$12.00 per 100.

BARONNE DE LA TONNAYE. Rich, vivid pink flowers. One of the best of the older varieties. 70c per doz.; \$4.75 per 100.

BARTIGON. Fiery crimson, white center. 70c per doz.; \$4.75 per 100.

BENJAMIN FRANKLIN. A new lavender Tulip, the color of which is absolutely pure and clean. Exquisitely lovely. 95c per doz.; \$7.00 per 100.

BLACK EAGLE. An enormous, deep, rich purple flower, so dark that it is almost black. Incomparably splendid. 90c per doz.; \$6.50 per 100.

BLEU AIMABLE. Beautiful lilac. Inside violet with white base and blue star. Height 25 inches. 70c per doz.; \$5.00 per 100.

BRONZE QUEEN. A large, strong flower colored lovely soft buff; inside tinged golden bronze. 75c per doz.; \$5.50 per 100.

CARRARA. Enormous pure white flowers without a blemish on a tall stem. The famous white Tulip of the English Gardens. \$1.00 per doz.; \$7.50 per 100.

CITY of HAARLEM Flowers of immense size colored deep shiny scarlet with a violet-blue base crowning 31 inch stems. Absolutely the finest deep scarlet Giant Flowering Tulip. \$1.00 per doz.; \$7.50 per 100.

TULIPS

Bloom in May

Since all three primaries plus pure white are essential to successful plant breeding, a third experiment was started in the hope of finding the two missing primaries and white.

The third experiment was successful in producing pure yellow and pure white. Immediately the plant breeders started crossing the DARWIN and the BREEDER TULIPS with the new HYBRID TULIPS to produce the modern GIANT FLOWERING TULIPS. Since the modern Giant Flowering Tulip contains the blood of all the preceding crosses in proportions now unknown even to the plant breeders themselves, it seems silly to maintain class distinctions which are both scientifically and practically absolutely meaningless. Except for color they are identical and so we dropped the designations DARWIN, BREEDER, and HYBRID as being useless and confusing. They are all Giant Flowering Tulips.

For best results allow four bulbs for each square foot to be planted.

INDIAN CHIEF One of the largest and most beautiful Tulips so far produced. The flowers measure over 8 inches in diameter and are carried on a strong, erect stem 38 inches high. The color is of incomparable glory, being a deep Indian red flushed coppery bronze and over the whole plays a burnished metal sheen and illusive rose colored lights. Matchless in its magnificence. \$1.45 per doz.; \$10.50 per 100.

CHERBOURG. Gigantic flowers colored a deep golden yellow with the color growing stronger towards the base of the petals, and with a flush of terra cotta on the inside of each petal. Unquestionably the loveliest of the new Tulips. 3 for 55c; \$1.75 per doz.; \$12.00 per 100.

CLARA BUTT. Lovely, delicate pink flowers flushed salmon-rose; the inside is a deep pink with a blue base and a white halo. One of the best of the older Tulips. 65c per doz.; \$4.50 per 100.

COLONEL LINDBERGH. The newest of the yellow Giant Flowering Tulips and the most beautiful so far produced. \$1.00 per doz.; \$7.25 per 100.

FAIRYLAND This new beauty is one of the loveliest Tulips in existence. The flowers, which are of tremendous size, proudly crown 30 inch stems. The color is an enchanting, vivid pink slightly paler at the edges. Fairyland is an exquisite thing, lovely beyond description. \$1.15 per doz.; \$8.50 per 100.

DON PEDRO. The finest deep coffee-brown with a narrow edge of golden brown. 90c per doz.; \$6.25 per 100.

DREAM. Beautiful lilac with flush of deep heliotrope. A very handsome variety which should be better known. Height 25 inches. 75c per doz.; \$5.25 per 100.

DUCHESS OF HOHENBURG. Lilac-mauve with deep heliotrope flush through center of petals. Large, long flower of exquisite coloring carried on a very tall, elegant stem. Height 30 inches. \$1.45 per doz.; \$10.50 per 100.

ECLIPSE. The flowers are tremendous in size and Eclipse, colored glowing mahogany red, is the finest deep red Giant Flowering Tulip in existence. 3 for 50c; \$1.65 per doz.; \$11.50 per 100.

EUNICE. Splendid large flowers colored a most brilliant, dark rosy pink with a delicate silvery edge. \$1.50 per doz.; \$10.75 per 100.

HAUTAIN The coloring of this new beauty, excepting that it is a little deeper with more orange in the blending, suggests the lovely salmon-pink of that famous old time favorite Clara Butt. The flowers, however, are much larger, the plant more sturdy and it has no stem weakness. \$1.05 per doz.; \$7.75 per 100.

COPERNICUS. An incomparably splendid flower of great size colored a warm coppery bronze with a soft rose bloom. The interior is a rich, warm brown with a yellow base. 90c per doz.; \$6.50 per 100.

CORIDION. A gorgeous Tulip of rare form colored a clean, clear, yellow overlaid with a lilac stripe. It has no equal, even no rival, in its color class. 90c per doz.; \$6.50 per 100.

CREATION. The newest, largest and finest bright orange Tulip in existence, which is in addition shaded with the loveliest possible shade of bronze. Incomparable in its coloring. \$1.00 per doz.; \$7.50 per 100.

EUTERPE. Silvery lavender edged pale lilac. Base white and blue. A long flower of beautiful shape, the finest lavender to plant with bronze Tulips. Excellent for forcing. 75c per doz.; \$5.25 per 100.

FARNCOMBE SANDERS. In its day this was a horticultural wonder, the marvel of the Tulip world, producing fair sized flowers colored an intense, brilliant scarlet. Farncombe Sanders is still good and by far the best of the "10c Store" varieties. 65c per doz.; \$4.50 per 100.

INDIAN CHIEF

FAIRYLAND

HAUTAIN

Late Flowering GIANT

FAUST. Incomparably the largest, finest and most brilliant deep purple-maroon Giant Flowering Tulip. 90c per doz.; \$6.50 per 100.

GEISHA GIRL. A talented woman might describe the beauty of the costumes of the romantic Geisha Girls of old Japan but we are mere men and this task is beyond our skill. A master painter might picture with some fidelity the blending of these delicate colors but our printer could

not reproduce his art. Since to say more is impossible, we will content ourselves with saying that Geisha Girl blends gray, lilac and rose in a medley of incomparable beauty and to this beauty adds deep reddish-purple to the inside of the flower to make the measure overflow. We regret that we can neither describe nor picture this marvel adequately: to know and appreciate it one must see it. \$1.45 per doz.; \$10.50 per 100.

JEANNE DESOR The most striking and unusual color combination so far developed. The flowers long, well formed and of splendid substance are colored deep orange-yellow with a wide band of scarlet. The coloring reminds one of the famous Keizerskroon with the colors reversed. Indispensable. \$1.10 per doz.; \$8.00 per 100.

GIANT. Deep purple covered with a glistening reddish bloom with a base of white and blue. Enormous flower. Height 28 inches. \$1.00 per doz.; \$7.50 per 100.

GODET PARFAIT. The best bright blue-violet. A very striking Tulip 90c per doz.; \$6.25 per 100.

GLOW. Vivid, glowing vermillion-red. 85c per doz.; \$5.75 per 100.

GOLDLAKE. A wonderful new golden yellow Tulip on very long, tall stems. Nearly as fine as Golden Age. 95c per doz.; \$6.75 per 100.

LEMON QUEEN The new Lemon Queen was unanimously voted by the American visitors to the great International Flower Show in Holland as incomparably the finest light yellow Tulip in existence. The large flowers, which crown a noble stem, strong and vigorous, are colored the purest and cleanest soft yellow, and there is not the slightest suggestion of a blemish. Lemon Queen is unquestionably the finest light yellow Giant Flowering Tulip in existence. \$1.20 per doz.; \$8.75 per 100.

GOLDEN AGE. In 1925 our president saw on the grounds of the great Dutch hybridist Tubergen, the first showing of the marvelous new yellow Tulip, Golden Age. Then there were just 30 bulbs in the world and they were priced at \$385.00 a piece. Mr. Elliott was so impressed with the marvelous beauty of this new creation that he immediately ordered his Dutch growers to pro-

duce it as rapidly as possible so that it might be introduced to the flower lovers of America. Not until last year have the stocks been large enough that we dared to offer it to our customers. Golden Age is a marvelously beautiful golden yellow Tulip growing 29 inches high; the best yellow Tulip in existence. 3 for \$1.20; \$4.00 per doz.; \$30.00 per 100.

LA FRANCE A new Tulip with large, beautifully formed flowers colored old rose shading to delicate pink—the coloring of the famous La France rose. This color is now and always has been universally acclaimed as the most beautiful, delicate pink in the flower kingdom. \$1.30 per doz.; \$9.75 per 100.

This collection has been selected by Mr. Elliott, whose reputation as a landscape architect is national. Every Tulip offered is healthy, virile and easy to grow. LOUIS XIV. Though 95c will now buy a dozen bulbs of the finest possible quality, Mr. Elliott still plants them in his garden. The

royal purple is still as glorious as ever and the golden edge gleams as brightly as twenty years ago. The bronze flush is as delicately lovely and the green-black base with its yellow star is as pronounced as ever. Louis XIV is still the most beautiful Tulip in the world. 95c per doz.; \$6.75 per 100.

To him these qualities are priceless. This graduate's Hand-Picked Giant Flowering Collection has been selected from blooming bulbs by experts under the direction of Mr. Elliott. It will satisfy the most exacting connoisseur.

PEACHBLOW

QUEEN
of HEARTS

PANORAMA

PEACHBLOW Imagine that you had before you a fine luscious Elberta peach. Before eating thereof you would let your eyes feast on the lovely coloring of the fruit. In the large, perfectly formed flowers of the Tulip Peachblow, you will find the same delicately beautiful peach-pink and with the same suggestion of red that you see in a perfect peach. Inside the cup you will find the same lovely canary-yellow deepening towards the bottom that you find in a peach when you cut it open. And in addition you will see black anthers to give marked contrast to the whole lovely color combination. This is an exclusive Elliott variety which can be secured no other place in the world, and getting control of it is another Elliott triumph. \$1.35 per doz.; \$10.00 per 100.

LA TULIPE NOIRE. Comes nearest of all to black; flowers of enormous size. 90c per doz.; \$6.25 per 100.

LOUISE DE LA VALLIERE. Bright cherry-rose; base blue marked white. The color is clear and clean and remarkably beautiful. One of the showiest of the Giant Flowering Tulips. Height 24 inches. 95c per doz.; \$6.75 per 100.

MARJORIE BOWEN. When the Dutch Bulb Growers Export Association informed us that the lovely Nectar had been completely exterminated in carrying out the crop destruction orders of the Dutch Government, our president raved in anger. It is true, of course, that Marjorie Bowen is more beautiful and more desirable in every way, but Marjorie Bowen is more expensive than Nectar was. These Tulips are so exquisitely beautiful that one or the other should be in every garden and now persons who

cannot afford Marjorie Bowen must do without. Marjorie Bowen has beautiful deep carmine-pink flowers, slightly reflexed and graceful in form. Incomparably the finest of its color. 3 for 55c; \$1.75 per doz.; \$12.00 per 100.

MERCURIUS. Tremendous flowers carried on tall, stiff stems colored a soft golden brown, very dark and flushed rich dark bronze and edged with shining light golden bronze. Splendid in its stately dignity. 3 for 50c; \$1.55 per doz.; \$11.00 per 100.

MERMAID. A new and most delicately colored Tulip producing enormous sturdy flowers colored silvery-white which is shaded soft silvery-pink. The shading almost suggests a tint, it is so soft and delicate. Truly a lovely thing in its delicious softness. \$1.15 per doz.; \$8.50 per 100.

MIMOSA. Tremendous flowers carried on tall, stiff stem colored light sulphur-yellow and flushed with pure pink, a color combination never before seen in Tulips and unusually lovely in its delicacy. 3 for 65c; \$2.15 per doz.; \$14.00 per 100.

QUEEN of HEARTS The flowers, which are cup-shaped and of tremendous size, are borne on tall, strong, stately stems and colored the cleanest, purest deep pink in existence. This new variety is truly a gorgeous and lovely thing without a possible rival among the Tulips. Queen of Hearts is so superb that when it was exhibited to Mr. Elliott by the plant breeder who developed it, he immediately secured control for its distribution in America. We recommend the incomparable Queen of Hearts without reservation. \$1.05 per doz.; \$7.75 per 100.

PANORAMA Deep orange-red, shaded mahogany; immense flower of marvelous beauty. 90c per doz.; \$6.50 per 100.

TULIPS *Bloom in May*

SUNSET GLOW The Dutch plant breeder who created the lovely Afterglow doubtless believed that his work would last forever. However, the world moves on and progress is ever upward and forward. And so, less than twenty years after its introduction, Afterglow, with all its beauty, is headed towards oblivion. Sunset Glow has been created and Sunset Glow is so much lovelier than Afterglow that comparisons seem foolish. The better color, the larger flowers, the sturdier, stronger stems of Sunset Glow seal the doom of Afterglow. The color is, of course, the same lovely deep orange suffused with salmon that made Afterglow world famous. 3 for 60c; \$1.90 per doz.; \$12.50 per 100.

MRS. BEECHER STOWE. Gorgeous, large flowers colored a rich, deep purple-blue. The color is that of the famous blue Concord Grape and over the flower spreads the same rich velvety bloom which is always so conspicuously lovely on the Concord Grape. 95c per doz.; \$6.75 per 100.

ORANGE PERFECTION. The most striking and the most intensely brilliant of all the Giant Flowering Tulips. The color is vivid salmon-orange with a bright blue base. 3 for 50c; \$1.55 per doz.; \$11.00 per 100.

PRIDE OF HAARLEM. Large flowers colored brilliant carmine-red. A famous old-timer and now a leader in the "10c Store" kinds. 65c per doz.; \$4.50 per 100.

PRIDE OF ZWANENBURG. Describing the color of this marvelous new Tulip all we can do is to call it salmon rose with a lighter border. It would not be more helpful if we said the color suggested the famous Phlox Rhinelander, or the color was between the marvelous Sunset Glow

and the glorious Dido. The color of Pride of Zwanenburg, with its interplay of light and shadow, defies description. \$1.00 each; \$11.00 per doz.

PRINCESS MARY. Very large and substantial flowers borne on tall stems colored an exquisite, deep pure rose. The tallest, finest and most perfect of the real rose Tulips. Do not confuse this variety with Queen Mary. 3 for 55c; \$1.75 per doz.; \$12.00 per 100.

PRINCESS ELIZABETH. The flower is of fair size colored a particularly lovely deep pink; tendency towards weakness in the stems. 70c per doz.; \$5.00 per 100.

PROFESSOR RAUWENHOF. Full cherry-rose, with ivory-white and blue star at base; flower of enormous size very tall. 70c per doz.; \$5.00 per 100.

QUEEN MARY. In every respect the largest, finest, and most perfect cerise-red Tulip in existence. 90c per doz.; \$6.25 per 100.

RAYON d'OR A magnificent new Giant Tulip with exceedingly large, perfectly formed flowers borne on tall, strong stems colored marvelous, glistening, bright golden bronze and edged with glistening bronzy yellow. The flower cup has an olive center. A remarkable and stunning creation. \$1.25 per doz.; \$9.50 per 100.

ROSABELLA The glorious Rosabella is a masterpiece among Tulips and who shall find words to adequately describe a masterpiece? We might recite that the flowers, unusually large and borne on 27 inch stems, are colored a delicious lilac-pink; a pink as warm, as delicate and as lovely as a rosebud; or a pink as luminous as the colors of a seashell; a tender pink with a flush of deeper pink suffusing each petal. Yet this doesn't nearly describe the soft charm of the lovely Rosabella nor does it give any hint of its fine fragrance. We give it up. Before you can know Rosabella, one of the world's greatest Tulips, you must see it for yourself. 95c per doz.; \$7.00 per 100.

The Exquisite *Sunset Glow* COLLECTION

The lovely colors and shades that fill the sky just before twilight—the delicate, peace-bringing pastel tints that come with the ending day—these hues are the inspiration of this Special Collection of Giant Flowering Tulips. Instead of vivid, gorgeous, strong colors, here you have a soft, gentle glow of dainty beauty; the fragile beauty of refinement. And with all this porcelain-like beauty, the bulbs are so virile and ruggedly healthy that they will thrive even if neglected.

Coridion. Lovely yellow and lilac.
Dillenburg. Loveliest salmon-orange.
Mrs. Beecher Stowe. Finest purple-blue.
Rayon d'Or. Glistening golden-bronze.
Velvet King. Royal purple.

TENNESSEE. A new Giant Flowering Tulip of stunning color and striking beauty. The color is a vivid, bright carmine-rose. ZWANENBURG. Yes, there is a finer white Tulip than Zwanenburg but it is more costly. In the meantime the flowers of Zwanenburg are nearly as large as the largest and the white is just as pure and the substance of the flower just as fine. Zwanenburg does have black anthers, which, of course, prevents it

WHITE GIANT Years ago we raved about Painted Lady, thinking it the finest possible white Giant Flowering Tulip. Then Zwanenburg was created and Painted Lady disappeared from our gardens. White Giant is the perfect white Giant Flowering Tulip on stems 30 inches tall. 3 for 65c; \$2.20 per doz.; \$14.50 per 100.

Nothing in existence even approaches its splendor when planted in masses, or the wonderful beauty of the individual flowers. \$1.00 per doz.; \$7.50 per 100.

GADELAN. For fifty years the plant breeders could not improve Parrot Tulips. Then they created Fantasy, the most gorgeously beautiful Tulip in the world. Now they give us the marvelous Gadelan. BUNCH-FLOWERED TULIP

The Sensation of the Tulip Shows

THOUGH we had admired these Tulips in Holland, until recently we had not had an opportunity to test them in America. Exhibited for the first time in our Tulip show they created a profound sensation. Every order booked included the Bunch-flowered Tulips (*Tulipa multiflora*).

The standard Tulip produces one flower to the bulb. The bunch-flowered Tulips produce from five to eight full sized flowers on each 2-foot stem. The colors are lovely and the effect is entirely new from anything heretofore seen in Tulips.

MAD. LE MOTTET. Bunch-flowering deep carmine-rose. 95c per doz.; \$7.00 per 100.

MONS. LE MOTTET. Bunch-flowering creamy white. 85c per doz.; \$5.75 per 100.

ENGLISH

The Patrician of Bulbs

THE English Garden Tulips bloom at the same time as the Giant-Flowering Tulips and the flowers average as large in size. The flower shapes, however, are different, being long and pointed, whereas the characteristic flower of the Giant-Flowering Tulips is cup-shaped.

The long, pointed flowers of the English Garden Tulips are indescribably graceful and lovely, and have that elusive elegance which results only from generations of careful breeding. They are the true patricians of the Tulip family, exhibiting the dignity, restraint, graciousness and pride of carriage which comes only as a result of centuries of leadership. In the opinion of sophisticated planters, they dominate the Tulip family.

For best effects allow five bulbs for each square foot to be planted.

ALASKA. A new and wonderfully beautiful clear bright yellow Lily-flowered Tulip on 25 inch stems. Nothing could be more lovely. 90c per doz.; \$6.25 per 100.

AMBROSIA. A rich and luscious flower of pale terra cotta with amber lights and a rosy glow over all. The flower is of tremendous size, rather slender in form, proudly held on a long fine stem. Superb in the garden and marvelously beautiful when cut. It is the most deliciously scented of all the tulips. 90c per doz.; \$6.50 per 100.

AVIS KENNICOTT. Splendid flowers, large and perfect, colored rich, deep yellow and having a black base. Unquestionably one of the best of the yellow English Garden Tulips. 75c per doz.; \$5.50 per 100.

ELEGANS ALBA. A lovely Lily-flowered Tulip producing large white blooms, each reflexing petal being margined with rosy carmine that does not spread as the flower ages. Exquisite in its charm and gracefulness. \$1.45 per doz.; \$10.50 per 100.

ELLEN WILLMOTT. Flowers are very large, exquisitely shaped, colored soft creamy yellow, deliciously fragrant. 75c per doz.; \$5.50 per 100.

FAIRY QUEEN. Soft rose-heliotrope, suffused with salmon-yellow. Flowers very large with a lovely color. 75c per doz.; \$5.50 per 100.

FLAVA. Lemon-yellow; large, beautiful flower on a tall, stiff stem. Will remain in bloom ten days longer than any other English Garden Tulip. \$1.00 per doz.; \$7.25 per 100.

GLARE OF THE GARDEN. Immense, long, slender flowers colored brilliant cochineal-red with an orange base and black anthers. The color is so vividly brilliant that it fairly glares in the landscape. This variety is excellent in the rocky. 85c per doz.; \$6.00 per 100.

GESNERIANA SPATHULATA. Flowers of enormous size on long, graceful stems. Color rich crimson-scarlet with glittering blue-black center. The demand for this grand Tulip has been so great that it is very difficult to get flowering bulbs. We pay a premium in Holland for guaranteed bulbs. This makes them higher priced, but our bulbs will bloom. 85c per doz.; \$5.75 per 100.

GRENADIER. Enormous flowers between 10 and 12 inches across, colored blazing orange. The color is the true flame orange without blemish. The most stunning Tulip it is possible to plant and in addition it is sweet scented. 85c per doz.; \$5.75 per 100.

(FLOWER IN MAY)

LA MERVEILLE. A magnificent variety with large, sweet scented, orange-red flowers. 75c per doz.; \$5.50 per 100.

MARCELLINA. The improved Sirene. It would seem impossible to improve the delicate and lovely Lily-flowered Sirene; nevertheless, the Dutch Tulip breeders have done just that. The pink of Marcellina is even more delicate, the lighter edge even more refined, the flower larger and sturdier, and Marcellina is, of course, Lily-flowered. Marcellina is the first English Garden Tulip to bloom and its pure clear color never fades while the blooms last. 95c per doz.; \$6.75 per 100.

MOONLIGHT. New. Light, soft yellow, enormous flower. 85c per doz.; \$5.75 per 100.

SIRENE. The fact that Marcellina is finer should not make you conclude that the lovely Sirene is worthless. On the contrary with its beautiful lily-shaped flowers colored glistening satiny rose with paler edges, it is one of the most enchantingly beautiful Tulips in existence. And all the loveliness of Sirene may be had for about half the price of Marcellina. 75c per doz.; \$5.50 per 100.

SPRING COMES WITH THE EARLY TULIPS

DIDO

the magnificent

LAST year we told our readers that quantity production had at last been achieved on this miracle bulb, and that we could cut the price from \$1.25 each to only 6½¢ each. How, where formerly, we could offer only a few hundred of these bulbs, we now could offer unlimited thousands.

This spring, hundreds of thousands of American gardens will blaze with the beauteous splendor of this superb Tulip.

Once the cost of this wonder Tulip was high enough to make even the extravagant hesitate. Now the price is as low as that of ordinary Tulips.

A Tulip of Blazing Splendor

If you did not plant Dido last year, do so this year. Remember it will bring beauty and distinction to your garden, not for just one spring but for at least three successive seasons.

These are its colors: Soft **orange-red** gradually suffusing to a **deep red** at the extremes of the petals. The inside of the flower is a clear **brilliant orange** without a blemish, and strikingly beautiful. The base of the flower is **black bordered deep yellow**.

The Dido is distinctly in the Giant Class: giant in size, giant in strength, giant in its power to grow strongly and beautifully in the poorest soil and in the face of neglect. This huge Tulip glows in a vivid translucence. In the sunlight it blazes as if the Little People—the fairies—had lighted a flame in its cup: a flame of gorgeous orange. The Dido bulb produces a big, healthy flower, royally placed on a strong, tall stem, 30 inches high. Yet

despite its superb health and ruggedness, the shape of its flower is exquisitely lovely; the form of its patrician ancestors; the long tapered shape of the Old English Garden Tulip.

Remember only the price of the Dido has been changed. Every bulb will produce the same beautifully colored and exquisitely shaped Tulip that it bore when the price was so much higher.

This must be so, or you get your money back in accordance with our Money Back Guarantee.

ELLIOTT NURSERY COMPANY

A Garden of Cloth of Gold...

FOR more than a hundred years the Dutch scientists labored to produce the perfect golden Tulip. For many years only partial success crowned their efforts. There came light yellows, lemon yellows, yellows touched with black, and reds, and other shades; all fine, but not the pure, all-over gold color.

Eventually patient, tireless, searching science won. The perfect golden yellow Tulip was created, the Yellow Giant.

But not only was the pure golden color achieved; Yellow Giant is one of the most beautiful Tulips in cultivation.

YELLOW GIANT A Semi-Precious Bulb

Because its cultivation was slow, because there were very few bulbs available, the price of Yellow Giant remained high. It was a rare bulb. Our price once had to be \$1.75 each. It still can be produced only in limited quantities. It still is a semi-precious bulb.

If you want your Tulip garden to be somewhat exclusive; if you want to possess all the beauty that a Tulip can give, and at the same time be something that the other fellow doesn't ordinarily have, the Yellow Giant is the bulb for you.

It possesses all the luminous beauty that is in shining gold. Its flower is a massive giant in size. It stays in bloom a long time and holds its full color to the very last. Its height is 38 inches.

Though you are completely without experience, you can plant this Tulip and produce as fine results as the most skilled gardener. Otherwise we refund your money. The Elliott money-back bond says so, and means so.

ELLIOTT'S BONDED NARCISSUS

WE presume that for every Narcissus bulb there are planted one hundred Tulips or Hyacinths. That this is a great mistake anyone really familiar with the old-time merits of the Narcissi must admit. They lack the brilliancy of color of the Tulips but greatly surpass them in variety, delicacy and gracefulness of form, so that one never becomes tired of their soft, beautiful colors and they are a permanent addition to the garden. All that they ask is that they be allowed to remain undisturbed

and they will increase in size and beauty year after year. We know of plantings made 50 years or more ago which are now finer than when originally set out. No one knows how long Narcissus will last.

Narcissi may be naturalized by the thousands in meadows and orchards where they will last indefinitely and they will grow in the house in the wintertime as easily as Tulips or Hyacinths.

For best effects allow 4 bulbs for each square foot to be planted.

TRUMPET DAFFODILS

AEROLITE. A huge new Daffodil of the purest golden yellow, beautifully proportioned and most graceful. The flowers last longer than those of any other Daffodil. \$1.90 per doz.; \$12.50 per 100.

DAWSON CITY. Perfectly proportioned and delicately refined, Dawson City is always the popular Daffodil for exhibiting. The trumpet is fringed and the flower colored pure golden yellow. The petals of the perianth lie flat and overlap. 3 for 75c; \$2.50 per doz.; \$18.00 per 100.

IMPERATOR. The newest, the largest, and altogether the finest pure white Daffodil in existence. No other approaches it in size, grace or beauty. 3 to 70c; \$2.25 per doz.; \$15.00 per 100.

KING ALFRED. This grand monarch of all the Daffodils has a large, bold golden yellow flower with deeply frilled mouth; elegantly recurved, with broad, splendidly formed perianth. It is the finest of the giant yellow Daffodils. Monster bulbs. \$1.90 per doz.; \$12.50 per 100. First quality selected bulbs, \$1.55 per doz.; \$11.00 per 100.

LORD WELLINGTON. Even among a race of giants the flowers of this new Daffodil marvel are enormous. They are the largest Trumpet Daffodil flowers in existence. And with their great size the flowers are most beautifully formed and no purer or lovelier yellow exists than that which colors these flowers. 3 for \$1.20; \$3.75 per doz.; \$30.00 per 100.

LOVE NEST. A new Daffodil with an apricot-pink trumpet and a starry white perianth. Possibly the loveliest of the pink

Daffodils and the most beautifully proportioned of all Daffodils. Each, \$1.25; \$14.00 per doz.

MADAME DE GRAAFF. Largest and finest white perianth; trumpet pale primrose passing to white. Delicate and lovely. \$1.75 per doz.; \$12.00 per 100.

MADAME VAN WAVEREN. The time will come when Madame Van Waveren will be used to the virtual exclusion of all other Bi-color Narcissus. It is the largest, the finest and altogether the loveliest Bi-color Daffodil in existence. Because it is so very new, rare and scarce Madame Van Waveren is for the time being too expensive for general use. Some day when the growers have had time to build up adequate stocks every Daffodil garden will have it as a matter of course. Each, \$1.50; \$16.50 per doz.

MRS. ERNST H. KRELAGE. The white King Alfred, producing a huge, bold trumpet deeply frilled, elegantly recurved, with a broad, splendid perianth. Mrs. Ernst H. Krelage is pure white. Admittedly the most beautiful of all white Daffodils and indispensable in every Daffodil garden. \$2.15 per doz.; \$14.00 per 100.

MRS. R. O. BACKHOUSE. The famous pink Daffodil of England. The trumpet, slim, long and deeply frilled is colored delicious pale apricot. At the edge of the trumpet, this color becomes deeper and the color effect pink. The background for the lovely pink is the flaring ivory-white perianth. Notwithstanding the delicate, almost fragile coloring, the flower has great substance and does not fade. The

choicest and most distinguished of all Daffodils. \$3.00 each; \$33.00 per doz.

OLIVER CROMWELL. A splendid new giant Daffodil with a broad, white perianth and large yellow trumpet. Blooms earlier than the other Bi-color Daffodils and produces more flowers. \$1.75 per doz.; \$12.00 per 100.

OLYMPIA. It sounds impossible but the Dutch plant breeders have actually improved the famous Emperor Daffodil. The new giant flowered Olympia not only produces larger and finer flowers of a deeper, richer color but produces more of them. It is truly magnificent. \$1.75 per doz.; \$12.00 per 100.

SPRING GLORY. A truly glorious Daffodil. Broad, white perianth and a long, chrome-yellow trumpet with reflexed brim. This fine Bi-color is one of the loveliest of all Daffodils. Monster bulbs, \$1.45 per doz.; \$10.50 per 100. First quality selected bulbs, \$1.15 per doz.; \$8.50 per 100.

TRESSERVE. A new giant flowering Daffodil which produces enormous flowers. The long trumpet, deeply lacinated and colored canary-yellow, is fully 2 inches wide. The broad perianth is colored a lighter yellow than the trumpet. \$1.75 per doz.; \$12.00 per 100.

VAN WAVEREN'S GIANT. This giant Narcissus is one of the largest Daffodils. The trumpet is colored deep golden yellow and opens very wide. The outer petals of the perianth, colored pale primrose, are exceptionally broad, while the inner ones are slightly twisted, giving the flower grace. \$1.75 per doz.; \$12.00 per 100.

GIANT

Incomparable

Daffodils

(*Narcissus Incomparabilis*)

For best effects allow 4 bulbs for each square foot to be planted.

BERNARDINO. A gorgeous flower with large, well-closed cream-white perianth and large, richly frilled cup of soft yellow with deep orange-apricot colored rim. Very sturdy. \$1.50 per doz.; \$10.75 per 100.

CROESUS. If you were to ask Mr. Elliott what is the finest Daffodil in cultivation, he would answer most emphatically, "Croesus." This marvelous Daffodil has a mammoth, flat orange cup against the reflexed perianth of delicate, light lemon-yellow. A truly marvelous variety. \$1.55 per doz.; \$11.00 per 100.

FRANCISCA DRAKE. Two years ago some sixty new Daffodils were planted in our test garden. Most of them, when they came into bloom, we judged worthless. "Just another Trumpet: A Barri not as good as Firetail—" was the disgusted comment of Mr. Elliott as he examined them. One, Francisca Drake, stood out from among the rest like a lighthouse on a dark night. A pure white perianth of unusual substance, each petal an inch and a half wide, tinted gold at the base; a cup, wide and deep, golden yellow at the base changing to flame-orange at the edge of the beautifully frilled trumpet. The flower has the poise and grace of a gull on the wing. In the judgment of Mr. Elliott the new Francisca Drake is lovely beyond compare. 3 for \$1.10; \$3.50 per doz.

GREAT WARLEY. A great, large, broad perianth colored pure, glistening white above which rises a large, bold cup colored the purest, clearest yellow. One of the very best. \$1.55 per doz.; \$11.00 per 100.

JOHN EVELYN. A new giant Daffodil with a perfectly formed flat perianth measuring 5 to 6 inches in diameter, colored pure, glistening white without a trace of cream shading above which rises a flat cup two inches in diameter fluted to the base and colored clean, lemon-yellow with a suggestion of orange. One of the four or five most beautiful Daffodils in existence. 3 for 70c; \$2.35 per doz.; \$16.00 per 100.

LUCIFER. Before the creation of Francisca Drake, Lucifer was the acknowledged leader of the red cupped Daffodils; indispensable in every garden. With its delicate sulphur-yellow star-shaped perianth and chrome-yellow cup heavily suffused with orange-red, it is just as lovely as it always has been, though it is not, of course, as large as the great Francisca Drake. 95c per doz.; \$6.75 per 100.

ORANGE GLOW. A new and outstanding giant Daffodil with a promising future. A giant perianth flat and overlapping, colored delicate primrose-yellow with a deep, beautifully frilled cup colored deep, glowing orange. Each 75c; \$8.25 per doz.

Croesus

SCARLET LANCER. Were it not that this new marvel is so rare and scarce, we would recommend it instead of Francisca Drake. Its beauty rivals that of a great pearl in the crown of an Oriental Potentate but like all such rare things Scarlet Lancer is expensive. A pure white perianth larger than that of Francisca Drake and even more refined in its proportions; contrasted with the perianth is the splendid cup colored the deepest, richest possible orange-red. Each, \$1.50; \$16.50 per doz.

WHITEWELL. This new giant Daffodil has a pure white perianth which is star shaped and flat or only slightly recurved. The cup, colored deep primrose, is large and bold, beautifully fluted and frilled, and has an orange edge. \$1.20 per doz.; \$9.00 per 100.

FIRETAIL A new and exquisite Daffodil with a broad, creamy-white perianth and a large, flat crown colored orange and deeply frilled with scarlet. The outstanding leader of the red crowned Daffodils and now the most popular Daffodil in the world. \$1.50 per doz.; \$10.75 per 100.

The perianth is yellow flushed with salmon giving the effect of apricot-yellow; crowning this is a large, vivid, glowing orange-scarlet cup. In addition the flowers are usually produced in clusters. Each 40c; \$4.40 per doz.

Leeds' English Daffodils (*Narcissus Leedsii*)

WHITE CITY (Improved White Lady). The broad, white perianth is even larger and more substantial, the light primrose cup even more graceful and sturdy.

White City is destined to supersede White Lady entirely. \$1.95 per doz.; \$13.00 per 100.

LORD KITCHENER A truly great, giant English Daffodil named for a truly great Englishman. The tremendous broad, flat perianth of Lord Kitchenier, firm in substance, is colored pure white and crowned with a cup, very large and open at the mouth, and elegantly crimped at the brim, colored the loveliest possible pale primrose. One cannot plant a lovelier Daffodil. \$1.35 per doz.; \$10.00 per 100.

Dwarf Daffodils for Naturalizing and Rockeries

BULBOCODIUM CITRINUS (Hoop-Petticoat). Delicate sulphur-yellow, funnel-shaped flowers. Height 6 inches. \$1.50 per doz.; \$10.75 per 100.

Double Daffodils

For best effects allow six bulbs for each square foot to be planted.

ALBA PLENA ODORATA (Double Poeticus). Double, snow-white, sweet-scented, gardenia-shaped flower. A very good variety for cutting. Not good for forcing. \$1.25 per doz.; \$9.50 per 100.

HOLLAND'S GLORY. Acknowledged the world over the Emperor has ruled the Daffodils for well over a generation. Holland's Glory is the new, double Emperor with gorgeous, large, camellia-shaped flowers colored the same beautiful, soft golden yellow which made the Emperor world famous. 3 for 85c; \$2.75 per doz.; \$20.00 per 100.

SNOWSPRITE (Double Leedsii). The longer petals are pure white; the shorter light lemon-yellow. \$2.35 per doz.; \$16.00 per 100.

THE PEARL. The lovely and delicate creamy-white Double Daffodil. The Pearl is even finer than the famous Alba Plena Odorata, and it is far easier to grow. Alba Plena Odorata is delicate and frequently comes blind. We have never seen a blind Pearl either in the garden or forced. \$1.25 per doz.; \$9.50 per 100.

VAN SION (Double Sir Watkin). Golden yellow, large flower on strong, erect stem. One of the best for early forcing. Also fine for naturalizing. \$1.30 per doz.; \$9.75 per 100.

TWINK Some two years ago we purchased bulbs of every new *Narcissus* we could get our hands on. When the bulbs bloomed in order that we might know those varieties which would be most popular, the public was invited to inspect the flowers and express their opinion of them. Without exception everyone who saw it proclaimed the new Twink the finest double Daffodil in existence. This new double beauty is primrose yellow interspersed with bright orange-scarlet, and there is nothing else that even approaches it in color and form. 3 for 85c; \$2.75 per doz.; \$18.00 per 100.

The Poet's Narcissus (*Narcissus Poeticus*)

For best effects allow six bulbs for each square foot to be planted.

ACTAEA. A truly gigantic Poet's Daffodil and the newest, largest, finest and best of them all. The tremendous perianth opens flat and is colored pure white; the broad citron-yellow cup is frilled with a broad margin of intense scarlet. Knowing well that forecasting the future is dangerous, nevertheless we predict without reservation that some day Actaea will supersede all the other Poet's Daffodils. 3 for \$1.90; \$6.25 per doz.; \$50.00 per 100.

GLORY OF LISSE. A superb Daffodil having a snow-white perianth, round and perfect; cup yellow with a vivid scarlet rim. \$1.75 per doz.; \$12.00 per 100.

darker, deeper, richer red than can be found in any other Poet's Daffodil. \$1.05 per doz.; \$7.75 per 100.

POETICUS (Pheasant's Eye). The famous Daffodil of song and verse known and loved the world over. The perianth is pure white, reflexing slightly; the cup, yellow and green, is margined deep scarlet. Splendid for cutting and naturalizing but it is a little hard to force. For forcing use the variety Ornatus Maximus. 85c per doz.; \$5.75 per 100.

POETICUS ORNATUS. Almost identical with the world famous Poet's Daffodil excepting that it blooms 2 weeks earlier and produces more flowers. Planted literally by the millions every year. 85c per doz.; \$5.75 per 100.

(The Improved Ornatus). This **POETICUS ORNATUS MAXIMUS** new beauty has all the virtues of its older prototype intensified and magnified. The perianth, much larger, is as white as that of Ornatus and even more beautifully proportioned; the larger yellow and green cup has an even more brilliant and stunning scarlet margin. In addition to being larger, finer and more graceful, Maximus may also be forced earlier than the older Ornatus. \$1.20 per doz.; \$9.00 per 100.

The Poetaz Narcissus

For best effects allow five bulbs for each square foot to be planted.

ASPASIA. A lovely new variety with very large flowers borne in clusters. The perianths are pure, glistening white and the cups clean, clear yellow. \$1.35 per doz.; \$10.00 per 100.

LAURENS KOSTER. Lovely flowers borne in clusters and having pure white perianths,

crowned with large, yellow cups. \$1.10 per doz.; \$8.00 per 100.

ORANGE CUP. Plastic ruby floating in sulphur pools is the color effect of this gorgeous variety. The perianths are creamy white and the cups orange-red. \$1.20 per doz.; \$8.75 per 100.

Gorgeous and exquisite flowers borne in clusters. The perianths, large, fine and flat, have their individual petals overlapping and are colored clear primrose-yellow. Above these massive perianths, starting in its contrast, rise great saucer-shaped cups colored a most brilliant, dazzling orange-scarlet. This new marvel is incomparably the most brilliant and dazzling of the scarlet Poetaz. \$1.30 per doz.; \$9.75 per 100.

SCARLET GEM

Mixed DAFFODILS for Naturalizing

Naturalizing quantities of Daffodils in woods, meadows or orchards makes it possible to produce such loveliness as baffles description; effects which for sheer beauty cannot be matched in the land of the fairies. And this year Narcissus are cheap enough to make it possible to offer a mixture for naturalizing without including therein the sweepings of the warehouse or the inferior bulbs of the second grade growers. This mixture conforms in every way to the Elliott standard of quality and is as fine a mixture as we know how to make. If one has an orchard or a piece of meadow land or a bit of woodland, these may be transformed into a garden paradise at an insignificant cost.

Two mixtures are now available; one containing the standard varieties only and the other having a reasonable proportion of newer things. The quality in either case is identical. Standard Mixture, \$5.75 per 100; \$52.50 per 1000. Special Mixture, \$6.75 per 100; \$62.50 per 1000. Special prices on ten thousand lots.

Eleven Hardy Bulbs ~ that flower in March

WHEN the shrubbery is bare, and every landscape is a depressing vista of sombre dreariness—when spring is a promise rather than a reality—then these eleven brave little flowers bring cheer to the winter-weary soul.

Neither snow nor wind, nor rain can deter them from appearing on schedule time. Like mischievous little coquettes,

they wave their cheerful colors to you from under the brown shrubbery or over the edge of the rockery.

Plant them once, and year after year they will come up every March to say, "Here we are, happy to make you happy!"

For best effects allow seven to nine bulbs for each square foot to be planted.

The Lovely HYACINTH ~ flowers in April

DELICIOUSLY scented, delicately beautiful in every detail, quietly refined and formal in shape and color. The graceful, dignified Hyacinth has a winning allure to those who are attracted to the elegance of simplicity.

To such people, spring would not be spring without their beauty spots of Hyacinths. It is significant that children love them, and that millions of Hyacinths find themselves on the altars of churches.

Everybody knows, of course, that in the garden Hyacinths are as easy to grow as weeds but do you know

that they are just as easy to have blooming in the house during the winter. You may pot them in soil if you prefer that method or grow them in special Hyacinth glasses, using nothing but water. Indeed, even Hyacinth glasses are not necessary. We have seen thousands setting in the top of empty, wide-mouthed pickle or olive bottles all blooming perfectly. All that is necessary is to have a container which will keep the bottom of the bulb wet for a quarter of an inch or so and to replace the water as it evaporates.

For best effects allow four bulbs for each square foot to be planted.

French Roman Hyacinths

French Roman Hyacinths are the earliest bulbs to bloom in the house. They have spikes of single, small, white, pink or blue flowers. They bloom profusely, having four to six flower spikes to each bulb. They may be had in flower from November all through the winter months if potted in September and thereafter at intervals of two weeks. They are easiest of all bulbs to bloom in the house and they are much prized for pots or cutting on account of their graceful appearance and delicate fragrance.

MINIATURE HYACINTHS

for Indoor Growing

Many plant lovers are convinced that French Roman Hyacinths are too high priced. Experienced planters who feel this way about it are using Miniature Dutch Hyacinths with results that are highly gratifying. Costing much less than Roman Hyacinths they give a larger flower with larger bells and more of them, and they are no trouble to force into bloom in January. In over ten years no customer has reported a disappointment.

HYACINTH *Multiflorus*

An ingenious Dutch Horticultural Scientist has developed a clever new method for treating a standard, top size, exhibition Hyacinth bulb, which makes that bulb produce 6 to 10 flower spikes instead of the usual one. The result is startlingly beautiful and wonderfully interesting. One gets a whole bouquet of lovely sweet scented flowers from a single bulb.

The mechanical process involved is expensive, requires great skill and time and, consequently, the supply of treated bulbs is severely limited. We cannot, therefore, guarantee to fill late orders. Notwithstanding the scarcity of the treated bulbs and the tremendous demand for them, in accordance with our established policy of keeping prices low, we have priced them at 35c each. The treated bulbs are extremely easy to grow. They are handled exactly as you are accustomed to handling first size named Hyacinths and they bloom at the same time. Of course, they are sold with our Money-Back guarantee.

SPRING STAR FLOWER

Milla Uniflora

This charming spring flowering bulb is almost unknown in this country but we know of nothing lovelier. Whenever it has been planted its blooming has always been a joy and a delight to the planter. It should always be planted where it can remain permanently and if possible in a rather moist soil. Besides, the Spring Star Flower may be bloomed in the house with the same treatment that is recommended for Hyacinths. It produces myriads of star-like flowers and a beautiful foliage which covers the ground like a carpet. Unquestionably one of the choicest of the hardy bulbs.

Giant Hybrid AMARYLLIS

When Nature sleeps, when the ground is as hard as steel, and when every landscape is bleak and barren, the gorgeous Amaryllis will fill your home with luxuriant tropical beauty.

Picture having flowers like this to help dispel the cheerlessness of winter. Large, lily-like bloom . . . beautifully formed and colored . . . a color range of reds . . . rose . . . crimson . . . scarlet . . . cherry

and maroon. And so amazingly easy to grow.

Each plant will average 4 big flowers, measuring from 6 to 8 inches in diameter. Occasionally 1 bulb will produce 2 stems with blooms, and occasionally a stem will have 5 to 6 flowers.

OUR FRIEND, the lawyer, has a garden of Lilies. Many other things he has in his garden—great banks of Azaleas that are worth a long journey to see. Tulips, Daffodils, and Crocuses are everywhere in the spring, and glorious show of Japanese Irises in June is a sight not easily to be forgotten—but he has Lilies by the hundred and by the thousand, and in so many varieties that from June until November there is always a fine display of Lily Flowers. Such a garden! By daylight it is splendid, by moonlight it is fairyland, and the air is filled with fragrance. Such a garden to visit, as we do visit it and travel forty miles a dozen times a year, and come away with our arms filled with great stalks of Lily Blooms.

Delivery of Lilies

Excepting for *Candidum*, which is ready in September, all Lilies are harvested late in the fall. American grown Lilies can usually be delivered in October, while European Lilies are usually ready in November. The Japanese Lilies frequently do not arrive in time for fall planting excepting in the South. Whenever any Lily arrives from abroad too late for fall planting in any district, the variety will be carefully repacked, placed in safe storage and delivered in the spring. Excepting for *Candidum* and *Testaceum*, all commercial Lilies may be planted in the spring.

Extra selected bulbs, 3 for 90c; \$3.00 per doz.; \$25.00 per 100.

of Lilies

For this is a garden in which there are always flowers to cut and to spare. It is not the miserable garden of bedding plants in which its owner finds it difficult to cut a little nosegay to give to a friend. We wish you who are content to grow commonplace things of so little beauty could visit this garden of Lilies, and then say what excuse you have to offer for your poor taste. Not that of cost, for Lily bulbs are to be had for as little money as bedding plants, and as Lilies are hardy, their first cost is their only cost, while bedding plants must be bought every season.

MARTAGON ALBUM (Europe). The lovely white form of *Lilium Martagon*. Each \$1.25; \$12.50 per doz.

PARDALINUM (Europe). 15 to 20 flowers carried on stems 7 feet tall and colored deep orange with maroon spots. The tips of the petals are intense scarlet. Not only lovely but one of the easiest to grow. July flowering. 3 for 90c; \$3.00 per doz.

TESTACEUM (Europe). Resembles more nearly than any other a yellow Madonna. In favorable situations it will grow from 6 to 7 feet tall and it is the most graceful of all the Lilies and its yellow color is exquisite beyond description. The bulbs are very scarce and orders for *Lilium Testaceum* will be filled in rotation as receive-

NAMED TULIPS

Elliott's Hand Made Mixtures

The usual method of preparing a mixture of anything is to take so many of this, so many of that and so many of the other, throw them in a pile, and mix them up with a wooden shovel. A mixture so made is a perfectly honest mixture but what an individual customer gets out of it is obviously the result of chance.

For advance orders only, we will prepare five hand-made mixtures.

Our new bulb warehouse, the finest thing of its kind in the world, contains a thousand bins. Every day, as required, ten employees will count out five bulbs each from ten named stocks and dump the fifty bulbs into one bin, repeating the operation until all of the bins are filled. Each bin will contain fifty bulbs and no more. Consequently to every customer who orders fifty bulbs of one of these mixtures, we guarantee that he will receive ten named varieties, five bulbs of each variety. We further guarantee that all the varieties used are offered in this catalog. We cannot afford, at this price, to pack the bulbs under separate names nor allow the customer to specify what varieties shall be included. The choice must be left entirely to us.

Customers wishing less than fifty bulbs will have their orders counted from one of these bins. Excepting where the order calls for bulbs in multiples of fifty, we cannot guarantee that they will be filled with equal quantities of the ten named varieties, but it is probable that they will be. To the best of our knowledge and belief no other bulb house in the world has the facilities to prepare mixtures as fine as these and it will probably be years before anyone else can attempt it.

The LOVELIEST TULIP IN EXISTENCE

Giant Flowering Triumph Tulip

*Queen
of the North*

**BIGGEST TULIP FLOWER
THAT GROWS**

INSPECTING the gardens of Holland's great-plant breeder, Mr. Elliott was shown what he believes to be the loveliest Tulip in existence. The flowers are immense, the largest Tulip flowers he has ever seen. Yet, notwithstanding their great size, the blooms are not clumsy but, on the contrary, graceful in form and most substantial. The stems average over two feet in height and have no sign of weakness. But the principal glory of this new Tulip is its color—

A Startling Pure Rose-Pink!

Before the creation of the QUEEN OF THE NORTH there was no pure pink Giant Flowering Tulip. The color of the older pink varieties is always modified with lilac or lavender. Many of them are, of course, wonderfully beautiful but they are not pure pink. The color of the new Triumph Tulip, QUEEN OF THE NORTH, is ABSOLUTELY PURE.

We were able to secure control of this marvelous new Tulip and the temptation to introduce it immediately was almost irresistible. However, Mr. Elliott, remembering the results of the premature offering of other splendid varieties, decreed that it should be held until the propagating stocks were safe and the bulbs could be offered at a reasonable price. He did not want a repetition of the history of Indian Chief, Eclipse, Marjorie Bowen, etc., which, because of their premature introduction, still remain too high priced for general use. Mr. Elliott wants all of his customers to have the best at a price they can afford.

Now the propagating stocks are safe and there are enough surplus bulbs that we can risk introducing the variety. Nevertheless, the stocks are not unlimited and we reserve the right to discontinue the sale of QUEEN OF THE NORTH at any time WITHOUT NOTICE.

Last year all available bulbs were sold before June 20th.
